

Clover Kiosk

Our all-in-one device features an enterprise grade 24" display, versatile payment terminal, and a built-in printer, all with low-touch set up.

USER FRIENDLY

Intuitive interface makes ordering faster and more accurate

SHORTER LINES

Move lines quicker for happier repeat customers

BROWSING TIME

Give guests more time to browse and explore your menu

ORDER ACCURACY

Guests enter their own orders avoiding employee errors

Payments: Accepts contactless, chip, swipe, and debit PIN payments

Screens: 24" order touch screen and 8" payment touch screen

Receipt printer: Built-in thermal dot receipt printer

Security: Clover Security end-to-end encryption

Connectivity: Wi-Fi, ethernet, and LTE connectivity

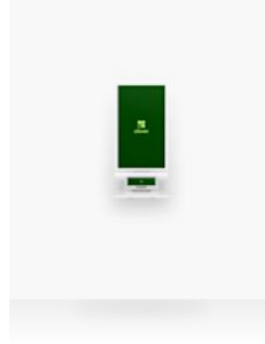

Mount: Optional wall mount accessory and supports 100mm VESA mounts

You've got options

Floor stand

The [floor stand accessory](#) has high and low setting options for people who are non-disabled or use wheelchairs.

Wall mounted

Clover's optional bracket accessory or any third-party 100mm VESA mount make wall mounting simple.

Countertop

Take it out of the box, put it on the counter top, and follow the guided set up. Ready for orders.
